

PREASSEMBLY WORKSHEET & COMPONENT HEIGHT GUIDE

The Table below and accompanying illustrations on the following page can be used in two ways: 1) If Morrell Industries, Inc is going to pre-assemble your Mobile WorkCenter, fill out the table and send it to your Sales Representative. 2) The information can be used to help you understand Mobile WorkCenter composition and assembly.

Please fill in the "Desired Height" column. Morrell will install components according to these specifications. Your system will be shipped preassembled. Write "n/a" for items you will not be using.
